

# Electrical Power Solutions

## ELECTRICAL SERVICES:

- Infra-red Thermography Inspection
- Circuit Breakers & Switchgear Testing
- Calibration and Preventative Maintenance
- Power Transformers Testing
- Insulation Testing
- Fluid Reclamation and Analysis
- Protective Relaying Testing and Calibration
- Cables Testing
- High Potential Testing
- Power Factor Analysis
- Ground Resistance testing
- On Demand Services
- Start-Up / Commissioning Services

## OCCUPATIONAL SAFETY:

- Arc Flash Hazard Analysis
- Coordination Study
- Short Circuit Analysis
- Labeling NFPA 70E Compliant
- Equipment Cleaning
- Load Flow

## GENERATOR SERVICES:

- Generator Maintenance
- Load Bank Testing  
(Generators up to 2000 KW)
