After Change

Overview

- Description of change
 - These rubber components including both the outer husk and plug/connector covers will continue to be formed with vulcanized rubber and IP69K rated, but now will be made of an advanced vulcanized material that includes silicone to provide even greater abrasion, temperature and chemical resistance. In addition the cord end portion of the device has been enhanced to include an additional "Cable Glove" seal to shed water or other particles more readily.
- Product Impact
 - no impact to fit, form or function
- Part Number Impact
 - see attached impacted parts list.
- Qualification Reports and samples available upon request after the date shown above
