

# Training Advisor

Assess the knowledge of your workforce and build your tailored training plan with an expert online consultant.

## Benefits

- Create knowledge assessments based on Rockwell Automation and general industrial equipment and job tasks
- Capture a snapshot of current knowledge levels prior to investing in training
- Create individual and group training plans
- Prioritize training based on your installed equipment, job tasks and training needs identified from knowledge assessment(s)
- Eliminate unnecessary expenses associated with training your workforce
- Justify training costs that help improve production performance

## Deliverables

- Summary of assessment results for individuals and groups
- Recommended training plan with either standard, Rockwell Automation, open-enrollment courses or tailored courses focusing on your employees' specific training needs
- Course descriptions
- Prioritized list of training needs

## Unlock improved job performance potential with the Rockwell Automation online knowledge assessment tool.

Training Advisor helps you determine a tailored training path for your workforce to obtain the knowledge required to successfully improve on-the-job performance.

This tool helps you identify skill and knowledge gaps hindering production performance and develops a training strategy that maximizes job performance and effectiveness.

With Training Advisor, you customize online assessments in the following areas based on job tasks that are performed specifically by your workforce:

- Controllers
- Networks
- Motion Control
- Drives Control
- Safety
- Visualization
- Process Control
- General Industrial Control (Electrical and Pneumatic)

Training Advisor compiles the assessment results and identifies areas for potential training. Use the results as justification to invest in training where it is most advantageous for your workforce.

LISTEN.  
THINK.  
SOLVE.
